

MARSHA BROWN

SKILLS

Jira · Selenium · Project Management ·
User Interface · HTML · CSS · React ·
Git · Github · JavaScript

STRENGTHS

⚙️ Critical Thinking

Good at conceptualizing and evaluating critical information, especially when it comes to decision-making.

💡 Creativity

My creativity helped me think outside the box and apply innovative ideas into my personal and professional life.

📈 Goal-setting

SMART goals are the main factor for my success, as they helped me act as a professional.

💎 Quick Learner

I have a proven ability to quickly grasp new concepts and adapt to changing situations. I am highly adaptable and able to learn new skills and technologies rapidly, consistently delivering results.

QA Tester

SUMMARY

Perceptive Entry Level Quality Assurance Tester applying knowledge of quality assurance testing to ensure the quality and safe operation of various parts and components. Adept at identifying quality issues. Committed to ensuring that quality standards are upheld to promote optimal customer satisfaction.

PROJECTS

Roofing

The previous website design was causing frustration and negative feedback from customers and the team. Therefore, a redesign was necessary to improve user experience and satisfaction, and to increase overall engagement and conversion rates.

Technologies used:

- HTML
- CSS
- Git
- Vercel

🔗 <https://roofing-pearl.vercel.app/>

Vegan Cuisine

As a vegan, I noticed a lack of reliable resources for authentic vegan food options. I designed a website to provide a platform where like-minded people can explore and share vegan food experiences, recipes, and resources. The goal is to create a community-driven platform that celebrates the vegan lifestyle while providing valuable information and inspiration for those looking to adopt or maintain a plant-based diet.

Technologies used:

- HTML
- CSS
- JavaScript
- Git
- Vercel

Recipe App

I struggled to find reliable resources for authentic vegan food options, including recipes. I designed an app to complement my vegan food website, providing a platform where users can access and save vegan recipes conveniently. The goal is to create a user-friendly and personalized app that helps vegans and plant-based eaters easily find and save authentic vegan recipes, inspiring them to explore and experiment with new plant-based food options.

Technologies used:

- CSS
- React
- JavaScript
- Jest(testing)
- Git
- Vercel
